

Turbo mixing for masons!

Hand-mixer **CX 400 HF**
with mixing tool **DLX 152 HF**

The ideal solution for optimal preparation of thin-layer mortar

- Hand mixer **CX 400 HF**
Rotation speed / Load up to 600 rpm
= higher speed for smooth mortar with optimum flow properties.
- Mixing tool **DLX 152 HF**
Two turbine blades one above the other
= thorough flow of material, active against formation of small lumps

**Mixed to be lump-free = fast and clean
application of the mortar coating**

Technical data	
Ref.No.	Model
20.032	Set CX 400 HF mit DLX 152 HF
Mixing tool	
40.983	DLX 152 HF (with HEXAFIX-Coupling) for mixing volumes up to 65 litres
40.984	DLX 152 (with M14-Thread) for mixing volumes up to 65 litres
Accessoires	
60.173	30 litres mixing bucket, Black, made of high-quality polyethylene; with carring handle

Subject to technical changes

Excellent mixing results within a short mixing time!
